

(Company)
(City, Street, Zip Code)

Dear (Engineer),

DCA Construction Products, LLC is a U.S. Veteran (VOSB) owned manufacturer of branded concrete accessories. Industry leading manufactured brands consist of - Durajoint® Waterstop (PVC, TPER/TPV, Arctic Grade, Hydrophilic, and Non-Hydrophilic), and Preco® Concrete Accessories (rebar supports, spacer wheels, clips, transportation products, tilt-up products, post-tension products, specialty concrete forming materials, etc.).

Durajoint "The Original" Waterstop was developed over 60 years ago with the first commercial application of PVC waterstop for the construction of the St. Lawrence Seaway. As a result, PVC waterstop is the most specified and utilized type of waterstop within the construction industry today.

As the Durajoint brand of waterstop has evolved over the years, it has been owned by several companies and specified by the actual company name such as, W.R. Grace, A.C. Horn, Tamms and Euclid Chemical. Today this comprehensive line-up of waterstop is simply referred to as, **Durajoint®**. Other waterstop brands such as Greenstreak, Vinylex, Southern Metals and Westec, all of which are owned by the same Swiss Company - Sika, are often lumped together and specified within the same bid package. As a result, alternative choices are limited and competition within the marketplace is reduced. By including Durajoint® Waterstops within the project specifications not only enhances competition by providing additional bid options at bid time, doing so also satisfies many projects where "Made in America" may be required. Additionally, as a VOSB (Veteran Owned Small Business) Durajoint Waterstops assist with meeting the veteran participation goals of USACE projects

I sincerely hope that you find the provided information to be both useful and helpful in specifying Durajoint® Waterstops moving forward. The enclosed material consists of the following:

- **Popular Project Profiles & Retro-Fit Kits** – Commonly used project profiles and post applied retro-fit kits.
- **Profile Brochure** - A comprehensive sampling of PVC & TPER/TPV waterstop profiles (additional profiles and custom profiles available), and hydrophilic and non-hydrophilic waterstops.
- **Profile Cross Reference Chart** – A convenient chart which provides comparison profiles of Durajoint vs. Greenstreak.
- **Durajoint Master Specification** – Performance specs for Durajoint Waterstops, PVC, TPER/TPV, Hydrophilic, and Non-Hydrophilic. Included is also a manufacturer's suggested installation guide.
- **Type 11 Profile** – Physical PVC material sample

In advance, thank you for taking the time to review this material. Please feel free to contact me if you have any questions, and/or we may be of any further assistance. If you would like to receive any of the provided information electronically let me know. I can be contacted anytime at, sales@durajoint.com, or by phone at, (888)-833-8308.

Sincerely,

(Name / Signature)– Durajoint® Project Specialist
